CLASSIC MARATHON

Regularity Rally

Italy, 14th to 20th June 2015

For the 26th edition the Classic Marathon will return to Italy, starting in the southern province of Puglia and making it's way north along the eastern coast of Italy all the way to Brescia. Limited to 75 crews a comprehensive tulip style route book will ensure that the event is accessible to crews of all abilities and a strong social scene is always a highlight of the Marathon.

The event is open to all cars of a type built before the end of 1985.

MARATHON

The 2015 Classic Marathon sees the event going Heel to Head, from the south of Italy and heading generally up the eastern side of the country. The roads we will be using are the ones on the spine of the country, where the great mountains and massif of Italy are. The navigation will be in the way of a Tulip road book, this will be relatively easy to follow and will give all the instructions needed for you to both compete and enjoy the wonderful route we have on offer.

As always the spirit of the Classic Marathon is the chance to use your pre 1985 vehicle and compete against vehicles of a similar age within a comprehensive class structure. The overall winners come from the pre 1968 classes to reflect the history of the event.

The accommodation provided on the event will be of a high standard to match the route! Rest periods will be spent by the coast generally, allowing you to soak up the Adriatic sun with fellow competitors. As always, we research the hotels thoroughly, they are usually of 4 star quality. Entry fee to the event includes a twin or double room, and the majority of lunches and evening meals.

As part of the service we offer on our events, we have a team of experienced rally mechanics who follow the events and are adept in finding parts in the most remote locations! They do carry a range of spares in their vehicles also, some of the repairs we have seen them complete and keep a vehicle in the events over the years are amazing!
